- A vertical color calibration chart featuring 24 color patches arranged in two columns of 12. The patches include a variety of primary, secondary, and tertiary colors, as well as a grayscale ramp. To the right of each patch is a numerical label, likely representing its colorimetric values (L*, a*, b*) or a reference number. The labels are: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24.
